many native birds, ducks and two resident geese (friendly!).

Having been recently renovated (bamboo flooring, wool carpet & repainted interior) & reroofed (with sheet iron & temperature reducing Eco Paint) it would suit a person/couple requiring a place that is low maintenance and cost effective. It is far cosier than the average relocatable house!! It is the perfect place for someone who is looking to move to the hills but isn't certain about where exactly or if Hills living is right for them. With no stamp duty on sale of the house there are no financial penalties!

Please note - no land for sale or lease agreement goes with this home, rather a site fee of \$165 per week applies covering rates, water & sewerage, SES levy. Electricity is below market rate as it is purchased by the park in bulk. Gas bottles supply the hot water and stove and generally last 8 months. Resort has recently been bought by a group who will be upgrading facilities and roads.
